• Disclaimer

This leaflet is designed and produced by ePropulsion. The purpose is to present information and facts to potential buyers for their convenience when making purchase decisions, not attack the competitor. All information regarding Torqeedo is collected from the internet. For official product information of Torqeedo, you may refer to Torqeedo website and its dealers, not this leaflet.

REASONS FOR SPIRIT

Deliver More Value For Less Cost.

1 50% More Runtime

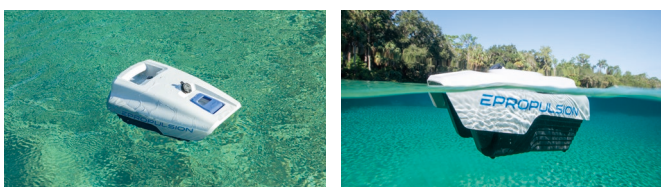

At full-throttle 3HP, Spirit 1.0 series delivers 50% more runtime than Travel 1103C.

*Full speed runtime data of Torqeedo Travel 1103C is collected from Torqeedo official website.

2 Floatable Battery

You never lose the battery once it falls into the water.

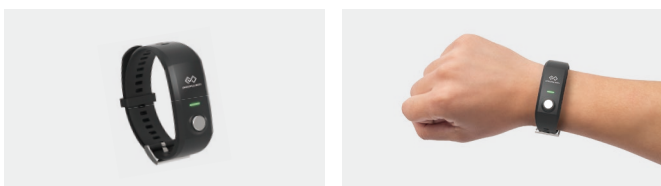

3 Metal Power Connector

Made of high-quality stainless steel and processed by PVD technology. It's super durable.

4 Safety Wristband

In the case of man overboard, the safety wristband will shut down Spirit 1.0 Evo immediately. Spirit 1.0 Evo can connect with up to 8 safety wristbands.

5 48V Battery Compatibility

Spirit 1.0 series is compatible with 48V ePropulsion E-Series battery to extend the range.

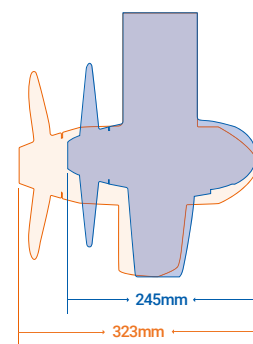

Runtime	E40 / 2048 Wh	E80 / 4096 Wh	E175 / 8960 Wh
Full-Speed	2 Hours	4 Hours	9 Hours
Half-Speed	8 Hours	16 Hours	36 Hours

*An external battery cable adapter and an E-Series charger are required at additional cost.

6 Small Lower Unit

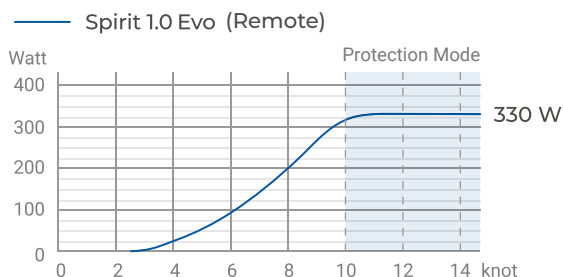

Spirit 1.0 Series has the smallest lower unit in class at 3 HP. So it creates less water drag. Travel 1103C's lower unit is 27% longer and 14.8% wider than Spirit 1.0 Plus'.

— Travel 1103C

7 Hydrogeneration

Spirit 1.0 Evo features hydrogeneration and empowers sailors to use renewable energy.

*The hydrogeneration data is based on real tests with the anti-ventilation plate installed.

8 Steer From a Console

Spirit 1.0 Evo Remote allows you to steer your boat from the console.
