

4 Transportation and Storage

4.1 Transportation

-  Check and ensure the package is intact without any damage.
-  Avoid violent vibration, strike or squeeze during transport. Get adequate damping protection measures before transport.
-  Do not expose the battery to the sun or rain during transport.
-  Check applicable local, national or international laws and regulations before transport.

The below figure displays how to pack the battery with ePropulsion original packing material. For long-distance transport, it's recommended to apply ePropulsion original package to pack the outboard before delivery.
